

6/21/16

Allie Hexley

# Today's Progress...

- Checking sizes of holes: hole of 0.135"/3.429 mm for screws (8/32) w/ laser cutter and hole of 0.159"/4.0386mm for odor inlets (10/32)
- Holes worked, test laser cut work
- Test of layers on laser cut worked, but layer 2 was misaligned and layer 3 was missing inlet holes and layer 0 wasn't on google doc

# To work on tomorrow...

- Odor inlets on top layer
- Smaller vents?
- Re-cut layers
- Upload layer 0 to laser cutter
- Use speeds of 25(/30?) and power of 85(/80?)
